

Locating Points on a Map

**Family Note**

In an ordered pair, such as (3,6), the first number indicates how far the point is to the right (or left) of 0. The second number indicates how far it is above (or below) 0.

Please return this Home Link to school tomorrow.

Here is a map of Africa. Write the name of the country in which each point is located.

1. (3,6) _____ 2. (6,3) _____ 3. (5,5) _____

4. (4,5) _____ 5. (5,6) _____ 6. (4,6) _____
