2 Digits × 2 Digits

Family Note

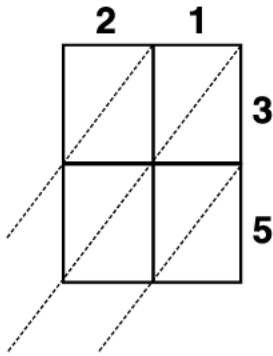

The class continues to practice the partial-products algorithm and the lattice method, now with any 2-digit numbers. Encourage your child to try these problems both ways and to compare the answers to be sure they are correct.

Please return this Home Link to school tomorrow.

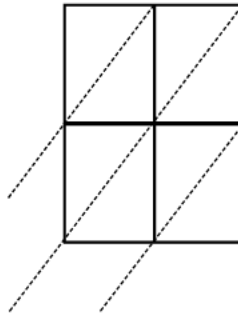

Use the lattice method and the partial-products algorithm.

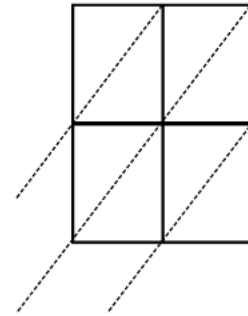

1. $21 \times 35 =$ _____

2. $17 \times 43 =$ _____

3. $58 \times 62 =$ _____

Practice

On the back of this page, use your favorite method to solve these problems.

4. $55 \times 49 =$ _____

5. $91 \times 33 =$ _____
